Frequently Asked Questions (FAQ)

General

1. Can I manage multiple accounts in a single portal?

Cloud
Infrastructure
Network
Observability
Digital experience (website/RUM/synthetic monitoring)
For managed service providers (MSPs)

Yes, you can manage customers using the MSP plan. We allow you to add nine customers on purchase of the MSP plan.

To manage more than nine, you can purchase the MSP customer add-on.

2. How does Site24x7 MSP charge?

3. What is capping? How does it affect when capping is done for customers?

4. How do I limit the usage of any resource for my customers?

5. Who can assign licenses to customer accounts in an MSP account?

6. Can I activate or deactivate any customer portal?

7. How do renewals work for MSPs?
